- Find a work-life balance
- Communicate well with all members of the team
- Alert manager/team to any issues preventing their work from being accomplished and ask for help

### **Experience &Skills:**

- Experience in Development using Ruby/Golang/Python/Nodejs.
- Should have live projects available to demonstrate
- Excellent understanding of Object Oriented Programming
- An agile mindset and the ability to adapt to changing priorities and requirements
- Good in analyzing and solving problems
- Passionate to work in a start-up

### **Benefits of the role includes:**

- Mentorship and guidance from backend engineers
- Exposure to industry best practices and emerging technologies.
- Opportunity to enhance technical and analytical skills.
- 5 Days working,
- Flexible Working Hours,
- Joining Kit
- Health medical insurance coverage with Family, etc.

### **Why GoComet?**

GoComet is a dynamic SaaS start-up that provides AI-powered transportation visibility solutions to revolutionize the trillion-dollar logistics sector. At GoComet, we are revolutionizing the logistics sector one day at a time, and every team member is committed to making it a reality.

We're seeking individuals who embody our core values, character, and attitude. While we recognize that skills can be developed with the right mindset and learnability, we prioritize those who share our philosophy. Our recruitment processes reflect this belief.

Look no further if you're looking for a diverse, talented, and vibrant workplace that recognizes and rewards hard work. We're ambitious, fast-paced, and unafraid to experiment, fail, learn, and ultimately succeed. This is us! Join our team if you share our culture and values.

We're an equal-opportunity employer. We welcome qualified applicants from all races, colors, religions, sexes, nationalities, sexual orientations, gender identities, and abilities.

We are hiring for multiple positions.
